Complaint ¶ 51. A justiciable controversy exists between the parties hereto as to the infringement of the '942 patent.

ANSWER: Paragraph 51 states legal conclusions to which no response is required. To the extent a response is required, Teva admits that because of Plaintiffs' Complaint against Teva, there is an actual, substantial, and justiciable controversy between the parties as to the infringement, validity, and enforceability of the '942 patent.

Complaint ¶ 52. Unless enjoined by this Court, upon FDA approval of Teva's ANDA, Teva will infringe one or more claims of the '942 patent under 35 U.S.C. § 271(a), including at least claim 1, by making, using, offering to sell, selling, and/or importing Teva's Proposed Product in the United States.

ANSWER: Paragraph 52 states legal conclusions to which no response is required. To the extent a response is required, Teva denies that the Teva ANDA Product will infringe any valid or enforceable claim of the '942 patent.

Complaint ¶ 53. Unless enjoined by this Court, upon FDA approval of Teva's ANDA, Teva will induce infringement of one or more claims of the '942 patent under 35 U.S.C. § 271(b), including at least claim 1, by making, using, offering to sell, selling, and/or importing Teva's Proposed Product in the United States. On information and belief, upon FDA approval of Teva's ANDA, Teva will intentionally encourage acts of direct infringement with knowledge of the '942 patent and knowledge that its acts are encouraging infringement.

ANSWER: Paragraph 53 states legal conclusions to which no response is required. To the extent a response is required, Teva denies that Teva will induce infringement of any valid or enforceable claim of the '942 patent.

Complaint ¶ 54. Unless enjoined by this Court, upon FDA approval of Teva's ANDA, Teva will contributorily infringe one or more claims of the '942 patent under 35 U.S.C. § 271(c), including at least claim 1, by making, using, offering to sell, selling, and/or importing

Teva's Proposed Product in the United States. On information and belief, Teva knew and knows that Teva's Proposed Product is designed for a use that infringes one or more claims of the '942 patent, and Teva's Proposed Product lacks a substantial non-infringing use.

ANSWER: Paragraph 54 states legal conclusions to which no response is required. To the extent a response is required, Teva denies that Teva will contributorily infringe any valid or enforceable claim of the '942 patent.

Complaint ¶ 55. Failure to enjoin Teva's infringement of the '942 patent will substantially and irreparably damage Plaintiffs.

ANSWER: Paragraph 55 states legal conclusions to which no response is required. To the extent a response is required, Teva denies the allegations in Paragraph 55.

Complaint ¶ 56. Plaintiffs do not have an adequate remedy at law.

ANSWER: Paragraph 56 states legal conclusions to which no response is required. To the extent a response is required, Teva denies the allegations in Paragraph 56.

PLAINTIFFS' PRAYER FOR RELIEF

The remainder of Plaintiffs' Complaint recites a prayer for relief to which no response is required. To the extent a response is required, Teva denies that Plaintiffs are entitled to any remedy or relief, including those requested.

AFFIRMATIVE DEFENSES

Without any admission as to the burden of proof, burden of persuasion, or the truth of any allegation in Plaintiffs' Complaint, and expressly reserving its right to assert additional defenses, Teva states the following affirmative defenses:

The filing of Teva's ANDA has not infringed, and will not infringe, directly or indirectly, any valid or enforceable claim of the patents-in-suit.

Fourth Affirmative Defense

The Complaint fails to state a claim for willful infringement.

Sixth Affirmative Defense

The relief requested in the Complaint is barred by the doctrines of res judicata, estoppel, laches, unclean hands, and/or waiver.

Seventh Affirmative Defense

Teva's actions in defending this case do not give rise to an exceptional case under 35 U.S.C. § 285.

Eighth Affirmative Defense

Any additional defenses or counterclaims that discovery may reveal.
